

Product Description

Halogen JC bulb

Low voltage 12V JC G4 bulb is with a G4 2-pin (4mm apart) base. The high colour rendering (CRI > 99) of these T3 G4 Bi pin bulbs provides vivid and natural colour light. They are dimmable and compatible with most of dimmer switches.

Advantage

- Flicker-free

Todaybulb's 2-pin halogen G4 bulbs deliver a steady, warm white glow at 2700K the moment you switch them on—no delays, no flicker. Designed for immediate full brightness, they offer consistent illumination ideal for accent lighting, desk lamps, and decorative fixtures.

- Dimmable

These 12V G4 bulbs are fully dimmable with the correct transformer, allowing you to easily adjust the brightness to create the perfect ambiance for any setting.

- Easy installation

The standard G4 Bi pin base can be installed without any tools or learning expertise.

- Crystal glass

Todaybulb's 2 pin halogen light bulbs are made of high quality clear glass, light transmittance up to 99.8%. The 360° omni-directional light emission, no dark area, uniform light.
